

Clinical Practice Educator Cranbrook, British Columbia

Are you a strong leader who can identify and take initiative to address professional development needs? Can you create a work environment that supports a climate of mutual respect, open communication & teamwork? If so, we would love to chat with you about a Clinical Practice Educator opportunity within our Obstetrics team.

This new position will focus on teaching accelerated perinatal and NICU programs as well as supporting current staff members.

The Clinical Practice Educator (CPE) provides leadership in the delivery of nursing education and instruction to staff and patients/clients based on adult education principles and philosophy within a specific clinical specialty or patient/client population. The CPE applies nursing theory, advanced knowledge and leadership concepts in providing clinical guidance and resource support to staff. The CPE assists the Manager in establishing and maintaining standards of care and in providing and participating in continuous quality improvement environment. The CPE provides guidance and support to staff in the application of the nursing process in the provision of patient/client care.

Qualifications:

- Graduation from an approved School of Nursing with current practicing registration with the British Columbia College of Nurses and Midwives (BCCNM).
- Advanced preparation in the clinical specialty of the assigned area, (obstetrics), three years' recent related experience in clinical area of expertise and two years' formal experience in adult teaching/learning, curriculum development, teaching, providing in service or staff development function or an equivalent combination of education, training and experience.
- Current CPR certification

If you would love to work with a progressive and cohesive team, we have what you are looking for and would love to hear from you. Apply Today!
